YOUR EVENT IS ZERO WASTE

WHAT WE'RE PUSHING BECAUSE THERE'S NO PLANET B.

Creating an event means having a positive impact – meeting people, sharing a moment, communicating a message – but the impact can also be negative, particularly on the environment.

A zero-waste event is designed to reduce or even eliminate the production of waste and limit the use of raw materials through different areas of action: Reducing waste at the source, reusing, recycling and composting.

Every event includes biodegradable plates, dinner napkins, knives and forks (fully compostable ASTM D 6868).
